| <ul style="list-style-type: none"><li>Developed a Placement Portal using Flutter and Firebase to streamline campus recruitment workflows.</li><li>Implemented role-based authentication, job posting, application tracking, and real-time notifications.</li></ul>                                                                                                   |      |
| <b>Recurrly</b> <a href="#">🔗</a>   <i>React Native, Expo, Supabase, Node.js</i>                                                                                                                                                                                                                                                                                     | 2026 |
| <ul style="list-style-type: none"><li>Developed a smart subscription tracking application for monitoring recurring payments and upcoming renewals.</li><li>Designed a centralized dashboard for tracking billing details and subscription statuses utilizing React Native.</li></ul>                                                                                 |      |

## ACHIEVEMENTS

**LeetCode** : Solved 140+ Problems | Ranked 580,604 Globally | Attended 6+ Contests | [Profile](#)  
**HackerRank** : Solved 25+ Problems | Earned 1 Certificate  
**GeeksforGeeks** : Solved 50+ Problems

## TECHNICAL SKILLS

**Languages:** C++, Dart, TypeScript, JavaScript  
**Frameworks:** Flutter, Node.js, React Native, Expo  
**Mobile App Development:** Flutter Widgets & Layouts, React Native, REST API Integration  
**State Management:** Provider, GetX  
**Backend & APIs:** Firebase Authentication, Firestore, Firebase Storage  
**Databases:** Firebase, Supabase  
**Developer Tools:** VS Code, Android Studio, GitHub, Canva, Google Colab
